TO BE FILLED IN BY OFFICIAL					
Card data	☐ City card	Period of validity			
	Card system's user identifier	_____ (to be filled in in case of temporary card)			
Signature of card issuer	Date	Signature and print name of card issuer			

Purpose of processing personal data

The purpose of processing is to manage the city-card account and appropriate contacts, realize the user's and the City of Vantaa's rights and obligations such as customer support and billing, verify and collect usage and download events, develop and analyze the controller's functions, customer communications, implement services, prevent and investigate abuses, as well as plan and develop the business. The data will be handled based on and consistent with the consent of the registered person. The data can be handled with people in the same group communities as the controller in accordance with applicable legislation. The registered person has the right to withdraw his/her consent at any time in such a way that the withdrawal will not impact the lawfulness of the processing carried out before the withdrawal of consent.

Sources of information

The main sources of information are information given by the registered person him/herself at customer service points, by phone, by mail, by email or in a corresponding way, as well as the controller's systems when the person in question registered for services and uses them. Personal data can be collected and updated from registers belonging to the same group organizations/companies as the controller such as payroll-administration registers. Potential location data are specified with the help of available location methods such as GPS, WLAN connection points and mobile network base stations.

CITY CARD IS COLLECTED AGAINST A FILLED-IN FORM AT THE CITY OF VANTAA'S VANTAA INFO.
