

Entering the number of actual visitors in Timmi by mobile

The number of actual visitors must be entered within two (2) hours of the start of the reservation and within 200 meters of the reserved facility. The mobile device must have location data enabled.

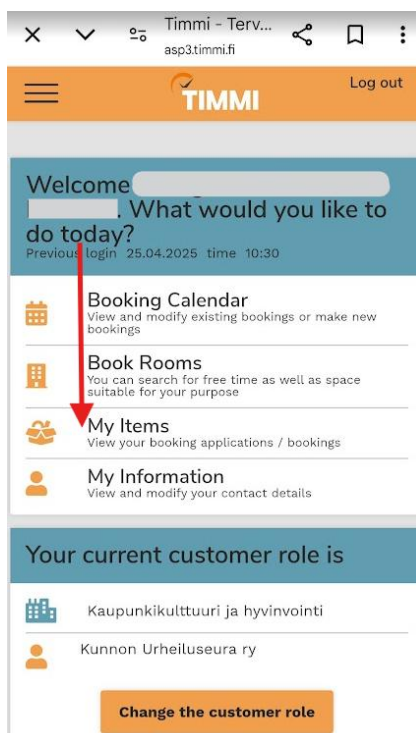

Log in to Timmi via Vantaa's [Reserving facilities and prices](#) page.

Your personal email address works as your username for Timmi. The password is the same one you created during the registration phase. Sign in using Suomi.fi identification every 14 days.

A screenshot of the Timmi login page. It has a blue header with the text "Login to the system" and a subtext "Choose the way to login that suits you. You can also browse spaces without logging in." Below this are three radio button options: "Browse without logging in", "Sign up or sign in with Suomi.fi identification", and "Login with your username and password". The third option is selected. Below the selected option are input fields for "Username" and "Password". A red arrow points to the "Sign in" button at the bottom left of the form. There is also a link "Forgot your password?" next to the button.

Check which customer role you are using. You can change customer roles, or, if it is correct, select "My Items".

You can search for the reservation based on the building. You do not need to fill out the other fields. Click [Search].

You can only add the actual number of visitors to a reservation that shows the icon .

Fri 25.04.2025 07:00 - 08:00

If you are not within 200 meters of the facility, you will receive the notification:  "Cannot enter the number of visitors. The number of visitors must be entered near the facility."

By clicking the icon, a field for entering the number of actual visitors will open. Replace the zeroes with the actual number of visitors. Save. The number of actual visitors has now been saved. You can log out of the system.
