Europaschule

 **Berufs-
bildungszentrum
am Nord-Ostsee-
Kanal**

We are a vocational school in the Rendsburg-Eckernförde district in Schleswig-Holstein, Germany's northern most state.

Our school offers young people many educational opportunities in which knowledge and skills can be improved. The offered courses cover theoretical and practical contents at five different locations in the Rendsburg-Eckernförde district.

Our headquarters are in Rendsburg (Herrenstraße). There are two subsidiaries in Rendsburg, Osterrönfeld, and Hademarschen (villages in the district).

Dual Vocational Training

Berufsschule/ Duales System

Our Offers in Dual System

At present approximately 3200 students take courses at our school. The courses are offered by 150 teachers.

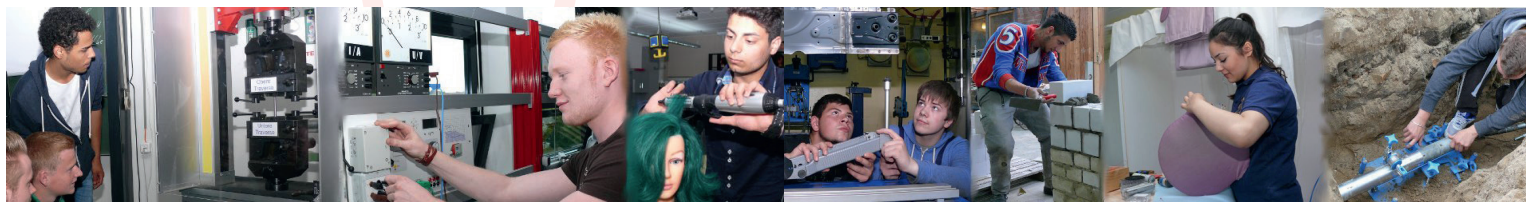

Learning opportunities comprise numerous kinds of schooling which are offered as full-time or part-time courses.

At the Berufsbildungszentrum am NOK, students can obtain vocational certificates as well as general ones—from General Certificate of Secondary Education (GCSE), up to university entrance qualification.

The system in Germany is called “Dual System” because education and training are provided at two places of learning: In companies and in part-time vocational schools. At present there are about 350 recognized professions for which

training directives have been issued by the federal government.

Whether or not students can attend Berufsschule does not depend on marks but on entering into a training contract with a company.

At the BBZ am NOK we offer a large variety of apprenticeships in the Dual System:
